

IT Service Desk — Incident Resolution Report

Incident INC0012858

Ticket Summary

Ticket ID	INC0012858
Priority	Critical
Subject	Nobody on the 3rd Floor Has Internet Right Now
Reported By	Mike Reeves (mreeves@servicedesk-simulator.com)
Department / Location	Facilities — Floor 3
Contact	x1095
Assignee	mclarke8
Status	Resolved / Closed

Issue Description

All users on the 3rd floor lost internet access starting roughly half an hour before the ticket was filed. No one on the floor could reach any websites, and the conference rooms on that floor were also affected. The 2nd floor was confirmed unaffected.

Business Impact

Multiple departments on the 3rd floor were unable to work, including the customer service team, who lost access to the CRM system.

INC0012858 **CRITICAL**

Reported by: Mike Reeves (mreeves@servicedesk-simulator.com)
Department: Facilities | Location: Floor 3
Contact: x1095

Issue Description:

Nobody on the 3rd floor has internet right now! Started about half an hour ago. None of us can get to any websites. The conference rooms up here are out too. I checked with the 2nd floor folks and they're fine.

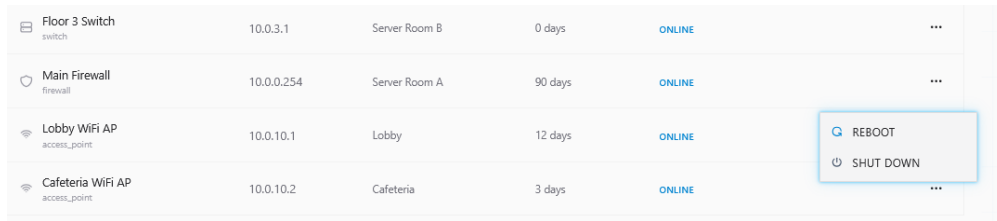

Business Impact:

Multiple departments unable to work. Customer service team cannot access CRM.

Diagnostics

Reviewed the network device list and identified the Floor 3 Switch (10.0.3.1, Server Room B) as the likely point of failure, since the outage was isolated to that floor while other network devices (Main Firewall, Lobby WiFi AP, Cafeteria WiFi AP) remained online and unaffected.

Floor 3 Switch switch	10.0.3.1	Server Room B	0 days	ONLINE	...
Main Firewall firewall	10.0.0.254	Server Room A	90 days	ONLINE	...
Lobby WiFi AP access_point	10.0.10.1	Lobby	12 days	ONLINE	REBOOT SHUT DOWN
Cafeteria WiFi AP access_point	10.0.10.2	Cafeteria	3 days	ONLINE	...

Actions Taken

- Restarted the Floor 3 Switch (SD1032) from the network device list.
- Communicated with the reporting user, Mike Reeves, via Team Chat throughout the process.
- After the restart, informed the user the switch had been restarted and internet access should be restored.
- User confirmed via Team Chat that connectivity was back and the issue was resolved.

Resolution

Resolution notes (as entered on ticket close):

"Verified outage isolated to Floor 3 switch. Device remains offline after restart attempt. Escalated to Network Team for further investigation."

A screenshot of a 'Close Ticket' dialog box. The title bar at the top says 'Close Ticket' with a blue 'X' icon on the left and a grey 'X' icon on the right. Below the title bar is a section labeled 'RESOLUTION NOTES (optional)'. Inside this section is a text input field with a blue border containing the text: 'Verified outage isolated to Floor 3 switch. Device remains offline after restart attempt. Escalated to Network Team for further investigation|'. At the bottom right of the dialog are two buttons: 'Cancel' and 'Close Ticket'.

Note on Documentation Accuracy

The resolution notes entered on ticket close state the switch "remains offline after restart attempt" and that the issue was escalated to the Network Team. This does not match the rest of the record: the Team Chat log shows the user confirming connectivity was restored after the switch restart, and the device list shows the Floor 3 Switch as Online. It is recommended the resolution notes be corrected to reflect that the switch restart resolved the outage, with no escalation required.
